Rahopara Farms Ltd  
1158 Werenui Road

**1158 WERENUI ROAD  
6 LOT DEVELOPMENT  
LIME QUARRY  
ON-SITE WASTEWATER DISPOSAL**

This small 6 lot subdivision to the north side of Werenui Road is made up of pasture, grazing land and the reclaiming of a past small lime quarry.

Each Lot is suitable for an advanced secondary treatment system to drip irrigation and average lot sizes allow for a 4-6 bedroom home.

We recommend a Reflection Treatment ISF System disposal to surface or sub surface irrigation (subject to lot/area) or Reflection Textile System for larger house builds. The disposal on each lot is as follows, based on drip irrigation surface laid.

Loading should not exceed 3ℓm<sup>2</sup> - average house 4 bedroom = 320m<sup>2</sup> irrigation

#### Refer Attached Plans

- |       |  |
|-------|--|
| Lot 1 | Existing house, existing system  |
| Lot 2 | 320m <sup>2</sup> open pasture – Irrigation elevated location through planted area   |
| Lot 3 | 320m <sup>2</sup> - open pasture – stream boundary to north - Irrigation elevated location south boundary through planted area |
| Lot 4 | 320m <sup>2</sup> - open pasture – part reclaim, low lying – Irrigation to west boundary by R.O.W                              |
| Lot 5 | 320m <sup>2</sup> - larger lot comprising bush/pasture and old quarry works – Irrigation to the east of building site elevated |
| Lot 6 | 320m <sup>2</sup> - open pasture – large planted area. Irrigation to the east in planted zone                                  |
